

KIESELMANN STAINLESS STEEL TUBES

Large selection available at short notice

Benefit from our extensive range of beverage line and rectangular tubes. KIESELMANN is one of the largest distributors of tubes made of cold-rolled or hot-rolled stainless steel.

In our tube storage, **200,000 metres of stainless steel tube are stored dry and protected**. So you can be sure that we will always supply you with what you need – optimally selected and made available at short notice.

For an immediate start and smooth project flow, we offer you a **pre-stocked, mobile warehouse** at your site on commission.

Tube grinding shop for top processing and surface quality. In our specialist surface treatment department, we work with a fully automatic grinding system for consistently high quality in all common nominal sizes from DN 10 to DN 300.

We supply DIN EN 10357 and DIN EN ISO 1127 stainless steel tubes in the following versions:

- > CC: unannealed, etched inside and outside
- > CD: unannealed, etched inside and polished outside
- > BC: annealed, etched inside and outside
- > BD: annealed, etched inside and polished outside

We will be happy to advise you on +49 7043 371-0
For example, on the various tolerance classes of the outside diameter limits or the linear expansion of our tubes.

4,000 metres of carrier tube and 5,400 metres of beverage line tube (900 metres of which are pre-insulated) for a state-of-the-art fermentation and storage cellar

TECHNICAL DATA

Nominal diameters	DN 10 to DN 300 Others on request
Materials	1.4307 / AISI 304L 1.4404 / AISI 316L Others on request
Product-contacting surfaces	Centre peak-to-valley height: $Ra \leq 0,8 \mu m$ Weld seam area: $Ra \leq 1,6 \mu m$
External surface	Pickled or ground, grain 400 longitudinal seam welded, calibrated, with re-rolled smooth weld seam
Nominal pressure	Depending on nominal width and temperature range up to max. 355 bar
Standard length	6 metres

Perfectly connected. In addition to our high-quality tubes, we offer you a comprehensive selection of tube connections, tube fittings and assembly accessories.
